

**SOLID WASTE DECALS**

---

**BASIS**

Any person, firm, or corporation doing work as a business in one of the following categories:

1. **Covered Truck:** A vehicle used for collection of industrial waste, demolition and construction waste, bulky waste or tree waste. If a covered truck is used to transport the designated solid waste produced only from premises owned and/or occupied by the solid waste collector, the annual license fee shall be reduced to \$25.00. Sideboards and tailgate must have any openings covered with a canvas or similar cover.
2. **Enclosed Truck:** A vehicle used for collection of commercial trash and industrial solid waste but not garbage. Truck bed must be all steel, liquid-tight and totally enclosed.
3. **Flat Bed Truck:** A vehicle used for collection of tree waste only. The tree waste must be secured with chains, ropes or otherwise and no part of the load shall hang over the sides or drag from the rear.
4. **Open Bed Truck:** A vehicle used for collection of bulky waste, residential bulky waste and tree waste. The truck bed must have sideboards and tailgate that effectively contains the bulky waste.
5. **Packer Truck:** A vehicle used for collection of residential trash, commercial garbage, commercial trash and industrial solid waste and bulky waste. The truck bed must be liquid-tight containing mechanical devices that convey solid waste into the main compartment of the body and compresses it.
6. **Sewage Tank Truck:** A vehicle used only for the collection and transportation of sewage not otherwise classified as a hazardous waste. Truck bed must be made of metal or fiberglass with a liquid-tight construction. All openings of the truck bed shall be kept closed except when waste is being deposited into or removed from the truck and shall effectively contain the solid waste.
7. **Special Truck:** A vehicle used for collection of hazardous waste and special waste as required and approved by the Health Department.
8. **Trailer:** A non self-propelled vehicle used only for the collection of salvage material such as paper and metal, yard waste, or tree waste. The trailer must be completely enclosed with doors.

**LEGAL**

**REFERENCE**

Chapter 7.08, Code of the City of Wichita, Kansas.

**REGULATIONS**

Due annually expiring November 1. License fees can be prorated but not refunded.

This license may be transferred to a replacement vehicle operated by the same licensee upon submission of a new application and approval of the Metropolitan Area Building & Construction Department.

New and renewal applicant's vehicle(s) must be inspected annually by the Police and the Metropolitan Area Building & Construction Departments before a license can be issued.

The License section orders the decals changing the color yearly on a rotation basis. The license section also orders the small red decals that signify the type of truck the large decal is for.
